

CHARTER, CARGO AND AIRLINE CAPABILITIES

AMS of Tupelo

On Call Capabilities

AMS of Tupelo prides itself on quick response times. We recognize that Part 135 and 121 operators cannot afford to be down. Delays are costly and unacceptable. If your aircraft is stranded away from your regular maintenance vendor our mobile repair van is ready to go anytime. With AMS of Tupelo you can rely on our experienced technicians to provide timely and efficient service.

Scheduled Maintenance

AMS has mobile repair vans stationed in Tupelo, MS (KTUP) and Nashville, TN (KBNA). From these strategic locations we can dispatch technicians quickly to respond to a variety of customer needs. Our parent company is an FAA Repair Station and is authorized for line maintenance at many airports throughout the South. Our current longstanding relationship with most air carriers means you can rely on AMS to send competent technicians who are used to working in the charter and air carrier environment. As required by the FAA, our technicians are subject to a drug test program. AMS also carries the proper insurance policies that most carriers demand.

AMS currently has contracts with major air carriers to provide overnight maintenance services at the Nashville International Airport (KBNA). Additionally, our Tupelo facility has provided these services as needed to air carriers and cargo carriers. We have the trained personnel and equipment necessary to perform a wide range of overnight services.
